3 Click "Power Plan" on the Acer ePower Management interface. A

To configure a power plan:

You can configure a power plan for when your computer is plugged in or when it is running on battery power. If you have more than one battery, you can configure a power plan for each battery.

1 Select the power plan you want to configure (balanced, high performance, or power saver).

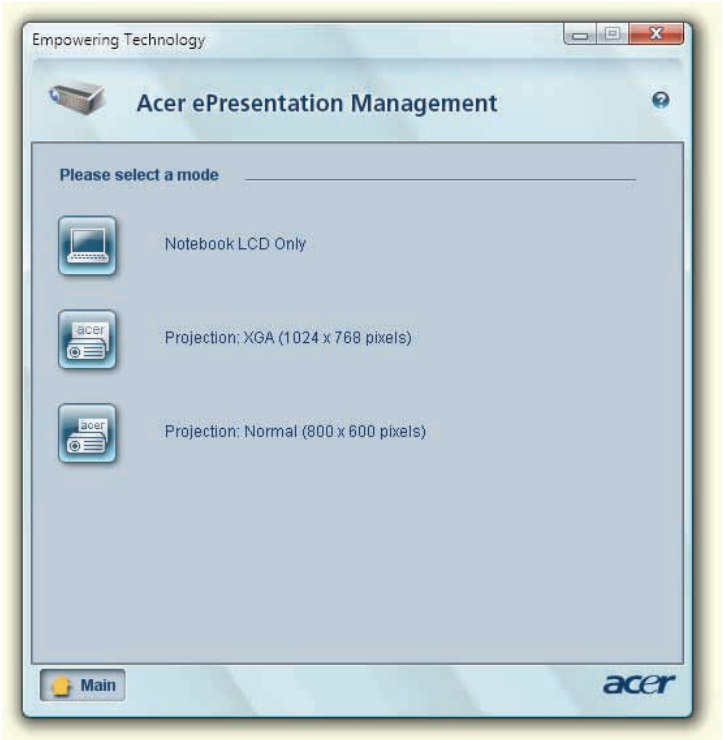
2 Click the Display Power Plan Settings icon.

Acer ePower Management B

From this utility you can configure power plans for when your computer is plugged in or when it is running on battery power. Click the Help icon for more information about configuring power plans.

Acer ePresentation Management

Acer ePresentation Management is a presentation management utility that allows you to configure your display settings quickly by pressing the hotkey: <F5> + <F5>. If you connect an external display device to your computer, you may need to configure both your computer's display and the external display device to get the desired display settings. Acer ePresentation Management helps you to configure your display settings quickly and easily. Please refer to the following instructions for using Acer ePresentation Management.



NOTE: When you connect an external display device to your computer, you may need to configure both your computer's display and the external display device to get the desired display settings. Acer ePresentation Management helps you to configure your display settings quickly and easily. Please refer to the following instructions for using Acer ePresentation Management.

L

	Item	Description
4	Ethernet-compatible port	Connects to an Ethernet 10/100-based network. See "Ethernet-compatible port" on page 25 for more information.
5	Line-in jack	Accepts audio line-in devices (e.g., audio CD player, stereo walkman).
6	Touchpad	Touch-sensitive pointing device which functions like a computer mouse.
7	Clickpad buttons (left, right)*	The left and right buttons function like the left and right mouse buttons.
		* The clickpad buttons are not available on all models. Refer to the Features Guide for more information.
8	Line-out jack	Connects to audio devices (e.g., speakers, headphones). See "Line-out jack" on page 24 for more information.
9	Kensington lock slot	Connects to a Kensington-compatible computer security lock.
10	Line-in/microphone-in jack	Accepts inputs from an external microphone.

Closed front view

	Item	Item	Description
1		Speakers	Left and right speakers output stereo audio.
2		5-in-1 card reader	Supports Secure Digital (SD), MultiMediaCard (MMC), Memory Stick (MS), Memory Stick PRO (MS PRO), and xD-Picture Card.
			Note: Only one card can operate at a time.
3		Wireless button	Enables/disables the wireless function (on models with bundled communication applications, pressing this button launches the 3 applications).

	Icon	Item	Description
		Microphone-in jack	Accepts inputs from external microphones.
		Headphones/ speaker/ line-out jack	Connects to audio line-out devices (e.g., speakers, headphones).
4		Infrared port	Interfaces with infrared devices (e.g., IrDA printers, IR-aware computers).
5		Bluetooth button Bluetooth communication button	Enables/disables Bluetooth functionality. Launches Bluetooth configuration (if enabled).
		Wireless button Wireless communication button	Enables/disables wireless functionality. Launches Norton Internet Security (if enabled).
L	6	Vents	Enable computer to stay cool, even after long hours of use.

Left view

	Icon	Item	Description
1		Kensington lock slot	Connects to a Kensington-compatible computer security lock.
2		Ethernet (RJ-45) port	Connects to an Ethernet 10/100/1000-based network.
3 L		External display (VGA) port	Connects to a display device (e.g., external monitor, LCD projector). A
4	DVI-D	DVI-D port	Digital video connection port for high-definition support.
5		S-Video/TV-out (TCVN) port	Connects to devices with S-Video input (e.g., TV, VCR). S A
U	6	USB 2.0 ports	Connect to USB 2.0 devices (e.g., USB S U mouse, camera). S
	7	IEEE1394 port	Connects to IEEE1394 devices.

	Icon	Item	Description
8	EXPRESS CARD	ExpressCard/54 slot	Accepts one ExpressCard/54 module.
9		Card reader indicator	Lights when the card reader is active.
10		Card reader slot	Accepts one Type II card.

Right view

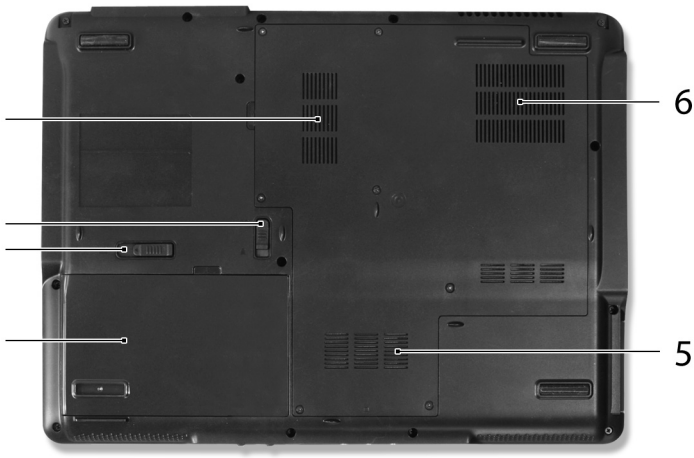
#	Item	Description
1	Optical drive	Internal optical drive; accepts CDs or DVDs.
2	Optical drive access indicator	Lights when the optical drive is active.
3	Optical drive eject button	Ejects the optical disc from the drive.
4	Emergency optical drive eject hole	Ejects the optical drive tray when the computer is turned off.

Rear view

	Icon	Item	Description
1		USB 2.0 port	Connects to USB 2.0 devices (e.g., USB mouse, USB camera).
2		Modem (RJ-11) port	Connects to a telephone line.

	Icon	Item	Description
3		DC-in jack	Connects to an AC adapter.
4		Ventilation slots and cooling fan	Enables computer to stay cool, even after long periods of use.

Bottom view



#	Item	Description
1	Memory compartment	Houses the computer's main memory.
2	Battery bay	Houses the computer's battery pack.
3	Battery release latch	Releases the battery for removal.
4	Battery lock	Locks the battery in place.
5	Hard disk bay	Houses the computer's hard disk drive (secured with a screw).
6	Ventilation slots and cooling fan	Enables computer to stay cool, even after long periods of use.

Empowering Technology

Empowering Technology provides easy access to commonly used settings and functions. Empowering Technology includes: e-Launch, Acer eAudio Management, Acer eDataSecurity Management, Acer eLock Management, Acer eNet Management, Acer ePerformance Management, Acer ePower Management, Acer eRecovery Management, Acer eSetting Management, and Acer eSettings Management.

Press the Empowering Technology key to launch Empowering Technology. Alternatively, click Start > All Programs > Empowering Technology to launch the application. For more information, see "Empowering Technology" on page 38.

Icon	Empowering Technology application	Description
	Acer eAudio Management	Acer eAudio Management (Acer eAudio Management)
	Acer eNet Management	Acer eNet Management (Acer eNet Management)
	Acer eLock Management	Acer eLock Management (Acer eLock Management)
	Acer ePower Management	Acer ePower Management

Empowering Technology can be set to launch applications or websites of your choice. Right-click on the Empowering Technology icon in the taskbar, then select Settings.

NOTE: If you have a multi-region DVD drive, you may change the DVD region code by using the DVD region code change utility. Please refer to the DVD player application's help file for more information.

Acer RegionMagic Multi-region DVD

Acer RegionMagic Multi-region DVD software allows you to change the region code of your DVD drive. Most DVD titles are divided into region codes. Titles are only released in a specific region (usually country) so that a DVD title made for one region will not play on a DVD drive for another region.

To use Acer RegionMagic Multi-region DVD software, please follow the steps below:

1 Click on the icon.

2 Select your region.

3 Restart your computer.

The DVD drive will now play DVD titles encoded for your region.

NOTE: You can change the region code only five times. After the fifth time, the last region code you select will be permanent. Acer RegionMagic Multi-region DVD software will not be able to change the region code.

The number of times you can change the region code is displayed in the Acer RegionMagic Multi-region DVD window. Your first region code is the factory default region code. The first region code you select is also the region code for the backup software. Acer RegionMagic Multi-region DVD software.

Changing the region code

You can change the region code (not the factory default) using the operating system's video properties. Acer RegionMagic Multi-region DVD software.

NOTE: (not the factory default) Select the region code you want to use. B

1 Press <Ctrl>+<F10> to open the Acer RegionMagic Multi-region DVD software. A

2 In the Acer RegionMagic Multi-region DVD software, click the DVD region tab. Select the region code you want to use. Click OK.

General Usage

This equipment complies with Part 68 of the FCC rules. On the bottom of this equipment is a label that contains, among other information, the FCC Registration Number and Ringer Equivalence Number (REN) for this equipment. If requested, this information must be provided to the telephone company.

If this equipment causes harm to the telephone network, the telephone company may discontinue your service temporarily. If possible, they will notify you in advance. But if advance notice is not practical, you will be notified as soon as possible. You will also be informed of your right to file a complaint with the FCC.

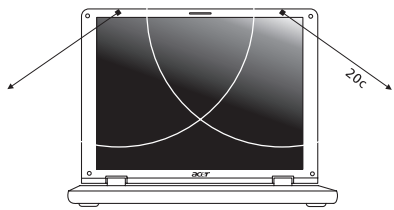
European Union (EU) electromagnetic compatibility directive

This product satisfies the European Union (EU) EMC Directive 2004/108/EC as to limitation of electromagnetic emissions and immunity for household, commercial use and light industrial use.

FCC RF safety requirements for wireless devices

This device complies with the FCC RF exposure limits set forth for an uncontrolled environment. This device should be operated with a minimum distance of 20 cm (8 inches) between the device and the human body. Use only the supplied integral antenna. Use of unauthorized antennas may result in non-compliance with the FCC RF exposure requirements.

Caution: To comply with FCC RF exposure compliance requirements, a separation distance of at least 20 cm (8 inches) between the antenna and any person's body (including hands, wrists, feet and ankles) must be maintained at all times.



Note: The manufacturer is not responsible for any radio or television interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
